Finding Multicultural Materials

Multicultural refers to books, regardless of genre, that have as the main character a person who is a member of a racial, religious, or language culture other than Euro-American. The Goldstein library has a large collection of multicultural works spread throughout the library. For a short list of some materials you should see the **Juvenile literature and other information resources for ESL students** document.

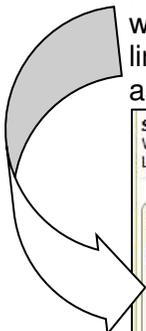

How to search for multicultural materials

By Subject

1. Go to the Goldstein Library webpage at: <http://slis.fsu.edu/About-The-School/The-Goldstein-Library>.
2. Click on the "Advanced Search" link under the FSU Libraries Catalog search box on the right-hand side of the page. This allows for advanced searching by subject. Some common subject headings would be "multicultural", "ethnic" and "bilingual".
3. Type in "multicultural" in the first box. In the box beside it select the option to search by subject headings. You can also limit your search to the Goldstein Library by going further down the page, clicking on the "Location" tab and select "Goldstein Library". Your page should look like this:

The screenshot shows the Florida State University Libraries search interface. At the top, there is a navigation bar with the university logo, the text "THE FLORIDA STATE UNIVERSITY Libraries", and an "Off-Campus Login" link. Below the navigation bar is a search box with the text "You are searching books, journals, music, movies, and more...". To the right of the search box are three buttons: "renewals/library account", "end session", and "help". Below the search box is a search options section with three radio buttons: "Basic Search", "Search begins with (browse)", and "Advanced Search" (which is selected). Under "Advanced Search", there is a section titled "Option 1: Search for words" with three search boxes. The first box contains the text "multicultural" and is followed by a dropdown menu set to "Subject Heading". The second and third boxes are empty and followed by dropdown menus set to "Anywhere". Below the search boxes are two buttons: "Search" and "Start Over". At the bottom of the search options section, there is a section titled "Limit your search further by:" with four dropdown menus: "Location" (set to "Goldstein Library"), "Format" (set to "ALL"), "Language" (set to "ALL"), and "Published from (year):" (with two empty input boxes for "to:").

- Press search to go to the results screen. The column on the left allows the search to be narrowed further. For example, once the search has been limited to the Goldstein library, if you would like to find books for juveniles you can click the “Juvenile” or “Easy and Picture Books” links under the Library Collection heading. This will only display results from Goldstein’s associated collections.
